

## **Opposition Group Motion for Debate**

### **Ealing Town Hall & Victoria Hall**

Council notes that almost £3m has been spent on the Ealing Town Hall hotel scheme to date excluding indemnity liability and considerable lost bookings revenue.

Council recommends that Cabinet cancels the Town Hall scheme.

Council believes:

1. That a future scheme for Ealing Town Hall should be community led rather than developer led.
2. That the council should create a genuinely independent Victoria Hall Trust, with the majority of members being non-councillors, which will determine the future use of the Victoria Hall.
3. That it is important to maintain the ability for community organisations and residents to make bookings at affordable costs in a range of rooms within both Victoria Hall Trust and Council-owned parts of the Town Hall.
