

A LIDO FOR EALING

To question whether a new outdoor Lido will meet Ealing Council's desired health outcomes

To question whether officers advised that a Lido facility could ever be built on Ealing's public parks or common land.

A new Lido will by definition only benefit residents living close by the facility and not all Ealing residents

To question why the decision to move ahead with the Lido was not introduced with substantial notice

Decision to move ahead without full costing suggests no real intention to build the facility

To question if the proposed Lido project is simply a distraction from stalled plans to redevelop the Gurnell Leisure Centre.

To question why no sporting facilities apart from swimming are planned on the site of the proposed Lido facility

To question whether Ealing needs an outdoor swimming facility that can only be used for a few months in the year.

To give details of any negative effect on the flora and fauna in the area caused by any works or relating to the Lido facility

To understand whether the proposed Lido could be funded by monies from sports bodies etc. rather than the Council's capital fund

Expand on how data centres might be used and whether there is potential within this project to save money or help environmentally using data centres in combination with a pools or lidos.

THANK YOU
